

**DRAFT  
POLICY # 1074**

**Title: Connect-ED Usage Policy**

In order to improve communication between teachers and parents, the Tiverton School Department has implemented the Connect-ED communication system. This system allows messages to be sent to parents and/or their designee via the telephone and email. The types of messages that can be sent may pertain to a district-wide issue such as the closing of school due to inclement weather, or they may be building related issues within the school such as student attendance, dances, fundraisers, etc.

Connect-Ed messages can only be disseminated by the Superintendent of Schools and/or his/her designee. Building principals may use Connect-Ed but any communication that is sent out at the building level must be preapproved by the Superintendent of Schools and or his/her designee.
